

Build a Tent

by Heather Tietz

Gather

- scissors
- tape

Go

1 Cut out the tent pattern above. If you don't want to cut your magazine, make a copy.

- 2 Fold along all solid lines.
- 3 Cut along all dotted lines.
- 4 Open the folds. Pull in one side of the paper at the cut to form an L shape.
- 5 Tape the inside of the L to hold it in place. Repeat with the other side.
- 6 Bend in the four pointed ends. Now your tent will sit flat. 🏠
